TWO WHOLESALE GROCERS MERGE

Firms Are N. Lindsey and Co., Inc., and H. Kirk and Sons, Inc.

EFFECTIVE JANUARY 1

Maximum Capital Stock $500,000—Buildings to be Retained for Present—Office Force Will be Consolidated.

An announcement of interest to industrial and financial Alexandria has just been made of the organization of the Lindsey-Kirk Corporation to engage in the wholesale grocery business, effective January 1. The new company is the result of the consolidation of two well known and long established business houses, N. Lindsey and Co., and H. Kirk and Sons, Inc.

This merger adds further testimony to the great strides that Alexandria has recently taken in the business world and shows plainly that her progressive citizens are alert to the need of both strength and co-operation in competing with the markets of other industrial centers. The proportion of this enterprises has appealed strongly to the judgment of the local bankers and business men and they are warm in their approval.

The officers and directors of the new company comprise Alexandria's most successful and alert merchants

All are young men, long active, however, not only in their own private interests, but in every public spirited endeavor that has concerned the welfare and advancement of their city. They are as follows:

President and general manager, Charles T. Nicholson; vice president, Orlando H. Kirk; treasurer, Wallace N. Lindsey, secretary; Harry D. Kirk.

The capital stock of the company is fixed at $250,000 minimum, and $500,000 maximum.

The value of this consolidation, not only to the merchants of Alexandria but the neighboring Virginia and Maryland territories that deal here as well, is clearly set forth in a letter that the former companies of this combine have addressed to their customers. The larger concern can buy in such quantities that it can secure the very lowest prices and will have sufficient capital to take advantage of all discounts, thus insuring their customers the benefit of a service and prices that have heretofore been unattainable.

The competent organization, thus assured, will, no doubt, mean the exploration of fields never before covered by any local firms and the benefit that will thus accrue to this progressive enterprise will naturally find its reflection in a better advertised and better known Alexandria.

For the present, the buildings now occupied by the old companies will be retained, although the offices will be consolidated. The building now occupied by N. Lindsey & Co., was once known as the Custom House of Alexandria. It was sold by the United States government in 1871 to the Exchange Building Co., of Alexandria, which in turn sold it to Noble Lindsey in August, 1881. Since 1875, however, it was occupied by the firm of N. Lindsey, ship chandler, whose stock at that time consisted chiefly of supplies for sailing vessels and groceries. This business was incorporated in 1910 with Catherine Lindsey, president; J. M. Willis, vice president; Wallace N. Lindsey, treasurer, and C. T. Nicholson, secretary.

The business of H. Kirk & Sons, Inc., was established in 1871 by Orlando Henderson. He was succeeded by H. Kirk, Jr., in 1880, who conducted a grocery and ship supply business under the name of H. Kirk, Jr., until 1900, when his son, Orlando H. Kirk, became associated with him and the firm name was changed to H. Kirk and Son. The business was incorporated in 1913, as H. Kirk and Sons, Inc., with H. Kirk, treasurer, and H. D. Kirk, secretary. The home of this company at the date of its establishment in 1871 was in a building on the ground where now stands the Naval Torpedo Station. Its present quarters are at the intersection of the Strand and King street.

The many friends of the organizers of this new corporation, in acknowledging this big gift to the business enterprise of Alexandria wish them a happy and prosperous new year.

TWO SMALL FIRES TODAY

Two fire alarms, one at 9 and the other at 10 o'clock today brought out the fire department. The first alarm was caused by a roof of a house at Mount Ida, Alexandria, taking fire. This was extinguished before the arrival of the department.

The other alarm was caused by an overheated stove in a house on the north side of Duke between West and Peyton streets which set fire to the wooden petition in the house. This was quickly subdued with chemical extinguishers.

APPEAL FOR CHILDREN'S HOME

Donations to Help Kiddies Have a Happy Christmas

In many of the churches on Sunday night an appeal was made that the Children in the Home at Iva Kota, Clifton Station, be remembered and donations of toys, fruit, etc., be made in order that they might have a happy Christmas. There are a number of children from Alexandria in this home and as it is in the country, there will be but little opportunity for the inmates to have any Christmas cheer unless it is taken to them by kind friends.

The Thanksgiving offerings from the schools was divided between the Anne Lee Memorial Home for the Aged and these children and they had a bountiful Thanksgiving. But thus far no donations at all have been received for Christmas. Not even on person has remembered them thus far and the superintendent fears that th notice may be too late for it to receive proper notice. Therefore, he who reads should heed the call and respond at once. Donations may be sent to 408 Duke street, or left with Mrs. Shepperson at the Gazette office. Cash donations may be sent to Taylor Burke, Burke and Herbert.

The boxes will be packed Tuesday afternoon and sent out to the home. Articles may be sent by parcel post direct to the home, addressed Children's Home, Clifton, Virginia.

One little girl was for several years in the children home but on account of defective vision has been returned to the home, a little boy, with defective heart valves has been returned for the same reason. A grandchild of a faithful minister of the gospel has also been received in the home where he is getting a good education and at the same time earning some money to assist his mother. A resident teacher, a graduate of Drexel Institute has charge of the education of the children and they are making progress in both academic and industrial arts.

Although this institution is in its infancy the foundations have been laid for an organization far reaching and effective in its relation to the needs of humanity.

The show will be given four nights, Winding up Friday night, and skipping Christmas Eve.

Bernie Hamilton, Bill Roland, Johnny Arnold, Harry Hinken, Clarence Sutton, Vernon Webster, McKinley Cornell, Johnny Bergin, and the others who are playing leading parts showed very well last night.

Contrary to the usual custom, the Revue of 1919 will be put on with six rehearsals. The members of the show troupe showed real interest in the production, and worked hard. With talented performers like the members of the "Revue of 1919" aggregation, lengthy rehearsals were not necessary. This show will be the quickest ever put on in Alexandria by local talent.

Seats for the four nights are on sale at Warfield's Drug Store. The entire lower floor is reserved at fifty cents. Reservations may be made either at Warfield's or at the Community Center, Prince and Royal Street. Phone No. 391.

PREDICTS COUNTRY'S RUIN

New York, Dec. 22.—"This is the beginning of the end of the United States! I shall be back in America. We shall all be back. I am proud to be among the first deported. The Czar in all his career never treated his subjects as we are being treated!"

Standing between two huskey khaki-clad Marines, at the rail of the "Soviet Ark," otherwise the transport Buford, Emma Goldman, high priestess of anarchy, shouted this valedictory as the transport carrying her, Alexander Berkman, and 247 others of their ilk, headed down the bay yesterday morning en route for an undesignated port in Soviet Russia.

SOUTH GIVES WONDERFUL DEMONSTRATION OF WEALTH

"The prompt raising of nearly $100,000,000 in a campaign for $75,000,0000 by one religious denomination in the South for missionary and educational work marks a distinct epoch in the history of the South and of the religious life of the nation. In the first place, it is by far the largest amount ever raised by one religious organization in one section, and thus it sets the pace for all time to come to stimulate other denominations to similar or to greater achievement. In the second place, it shows to the people of the South their own wealth and power, and thus quickens the latent energy of every man and woman in that section. It also gives to the whole world a wonderful illustration of the South's vast potentialities in money and in consecrated men and women, who realizes their responsibilities to the world. No forward movement the South ever made before has had such a tremendous influence for its good, for the good of the nation and of the world as the mighty campaign which has stirred the whole South and caused such universal discussion in secular papers of the great movement.

We trust that every other denomination will go forward in similar campaigns and thus center the thoughts of all the people upon religious activities as the only salvation from the spirit of turmoil and Bolshevism."—Manufacturers' Record.)

NEGRO SOLDIER LYNCHED

Georgians Take Prisoner From Guard on Train

Columbus, Ga., Dec. 22.—Boarding a Central of Georgia passenger train at Smithville, Ga., a mob of about 50 men seized Charles West, a returned negro soldier, and hurried him away to a secluded spot where he was shot to death.

The negro had been arrested in Jacksonville, Fla., on a charge of having killed Emmett L. Brightwell, a farmer of Richland, Ga., and was being returned to Americus to answer to the charge when he was removed from the train.

The train was boarded so quietly when a three minute stop was made at Smithville that members of the train crew did not know that the mob had seized the negro until informed by the prisoner's guard after the train had left the town.

The body of the negro was found late in the day hanging in a tree and riddled by bullets. A coroner's jury held immediatetely returned a verdict that West came to his death at the hands of unidentified men.

RAILROAD BILL PASSED

Anti-Strike Provision is Retained in Bill, Which Goes to Conference

The Cummins bill, paving the way for return of the railroads to private operation, passed the Senate late Saturday by a vote of 46 to 30, ending a prolonged discussion of the measure and making the holiday recess of Congress possible.

It went through without change in the antistrike and other important provisions around which the Senate measure was drawn, and was sent to conference for adjustment during the recess with the Esch bill, passed by the House November 17. Final enactment of the permanent railroad reorganization legislation is hoped for by leaders early next month.

The ultimate disposition of the railroad problem, however, still is in doubt, as the Senate and House bills will be in conference and Congress in recess on January 1, the date previously set by President Wilson for the return of the lines to their owners. No further word regarding his present intentions reached Congress before adjournment over the holidays.

"DOG LAW CHANGES"

Canines Must be Listed For Taxation Each Year

The Virginia Legislature, when it meets in January, will be asked to make certain changes in the state game, fish and dog laws. The dog law was taken up in detail at a conference of state game wardens, sportsmen and farmers in Richmond last week. Resolutions were adopted petitioning the legislature to amend this statute so as to eliminate the provision requiring that all dogs be muzzled or confined at night, and to make the price of duplicate tags ten cents instead of twenty-five cents. Other amendments suggested merely make clearer existing provisions of the dog law. It was decided to ask the Legislature to put the fowl destroying dog in the same class with the sheep killer. The amount of money collected under the present dog law amounts to more than $230,000, as against $87,000 collected under the old law.

Changes suggested in the game law provide for a daily bag limit of 15 partridges, 2 wild utrkeys and 6 pheasants, with two deer as the season limit. It was also recommended that it be made unlawful to kill a deer the horns of which are not visible.

The conference was called by Col. F. Nash Bilisoly, commissioner of game and inland fisheries. Every section of th state was represented.

With regard to the dog law, the game department has received an opinion from the Attorney General holding that dogs must be listed for taxation with commissioners each year.

FIVE DIE IN RIOTS

Argentine Harvest Hands Attack Jails in Two Towns

Agitation among the harvest hands of Buenos Aires province, where an agrarian strike has been in progress, resulted in casualties last week when 300 armed laborers attacked the police station in the village of Cascallaras in an effort to rescue a fellow worker who had been arrested. The laborers were driven off after four of them had been killed and a dozen wounded.

Mounted police later were sent to Cascallaras from the city of Tres Arroyas. They rounded up 200 harvest hands and sent them to the military port of Bahia Blanca, the leaders being retained at Tres Arroyas.

An attack was made on the police station at Bartolome Mitre simultaneously with that at Cascallaras resulting in the killing of one of the prisoners in the station.

"ABSENTEE RELIGION"

The Rev. S. Arthur Huston, rector of Christ Protestant Episcopal Church, Baltimore, preached yesterday morning on "Absentee Religion," a study of the character of doubting Thomas. The text was, "But Thomas was not with them when Jesus Came."

Ministers in Alexandria are often disheartened at the number of empty benches they face when they rise in their pulpits and begin the services Occasionally some heralds of the cross make allusions to the corporal's guard which attend church. Such conditions however, are in evidence everywhere. It will be remembered that in one of Dicken's novels he tells of the tolling of church bells in London, which, to his imagination, say "Come, come, "But, says the novelist, "they do not come."

"When the Son of Man cometh shall he find faith on the earth?" is an awful interrogation, but really an affirmation. Thomas was a spiritual "slacker," and he happened to be absent at a time when above all others he should have been present. He missed the opportunity to talk to the risen Lord.

There is an old story to the effect that in Russia Santa Claus is represented by an old woman. It is said that the three wise men while on their way to the inn in Bethlehem stopped at her house. When they were about to resume their journey they invited the woman to go with them. For some reason she declined, but later, realizing what she had missed, she filled a basket with presents and started after the wise men. She failed, however, to come up with them, and ever since on the night of the 24th of December she fills her basket and enters every home hoping she may be able to leave some things which will appeal to the wonderful Babe described by the magi. This allegory has its lesson. The old woman wanted a part in the presentation of her gifts but she missed her opportunity. Too many allow the procession to pass in our day.

EXIT OF UNDESIRABLES

Alexander Berkman and Emma Goldman are now being "rocked in the cradle of the deep," en route to Russia. They should have been cast out of America years ago, as it is hard to understand why such specimens of the genus homo should ever have been afforded An asylum in the land of the free and home of the brave. The shores of America have to them long since sunk in the western horizon and within two or three weeks' time they will be mingling with their element, the vultures of the old world.

The deportation of the Goldman woman (a modern Jezebel) and her companion, Berkman, ends a joint career of 30 years in the United States during which they preached the overthrow of government by violence. Berkman spent 16 years and she 3 years in jail, but they were never punished for the part their teachings played in attacks by others on life and property.

Berkman served 14 years for shooting Henry Clay Frick and 2 years for urging young men to abstain from registering for the draft early in the war. The Goldman woman was in prison 2 years for opposing conscription and 1 year for inciting to riot.

Their joint activities as publishers of the anarchist magazine, Mother Earth and the Blast, suppressed during the war, combined with their addresses at anarchists' meetings, helped cause the assassination of President McKinley, the Government charged in its deportation proceedings. The confession of Czolgosz, described the influence which Miss Goldman's writings had on him.

Their influence was traced in the dynamiting of the Los Angeles Times. They were suspected of receiving German money to oppose preparedness by the United States before the United States entered the war. They co-operated with German spies in endeavoring to promote a revolution in India during the war. They were the pioneer radicals in the United States.

MORE PAY FOR FIREMEN

(Communicated)

Citizens of Alexandria get behind your fire department, they deserve more money than they are getting. The best part of the population of Alexandria don't realize the fireman's position. At night the whole town depends on them, in case of fire.

The citizens can go to bed with out worrying, but does the fireman? No. He always makes preparation, in case a fire breaks out in the small hours of the morning, to make a speedy get away, and it doesn't matter what kind of weather, the men are always on the job, to protect life and property.

The large body of volunteer firemen have splendid apparatus, and expert mechanics driving them who are on the job six days a week, and have but one day a week home and get a salary of $110 a month.

Do you realize what that means to a married man?

So, citizens, of Alexandria, get behind them and give them a boost. Imagine men out in the wintry weather handling wet hose. It is your property that they protect so give them a lift and help them.

A Taxpayer.

A PICTURE FOR DRY ONES

Three years ago, before the United States was forced to declare war upon Germany, 30 odd steamships, heavily-ladened with all sorts of provisions, left Hampton Roads in one day for Europe and ports. At that time prices of all necessaries of life were forging upward while wages had not advanced far enough to meet the high cost of living. Many Americans were filled with indignation upon realizing that the resources of the country were being sent beyond our shores to feed foreigners, causing shortage here and necessarily high prices.

The shipment of liquors from the United States at a time when Christmas is in the air is likely to cause resentment among the millions who have no interest in the dry wave which has swept over the country.

A $24,000,000 stream of whisky is now flowing toward the Eastern seaboard, some to Baltimore, some to New York and probably more to Newport News, Va. It is to be exported to foreign countries, a considerable amount being consigned to Germany.

In the 220 cars required for this the greatest movement of liquor from Kentucky ever known, is a total of 1,200,000 gallons.

A monitor turret with revolving searchlights and guards armed with guns of large calibre was mounted last night on the roof of a distillery near Newport, Kentucky.

THE DANGEROUS AIRGUN

Christmas is but three days off, and the authorities have taken measures, as they always do at this season, to minimize accidents liable to happen by the careless use of guns, pistols and fire works. The attention of shopkeepers has again been directed to the fact that it is unlawful to sell such contrivances to minors, and their elders who may furnish children with guns and pistols can be held responsible if the evidence against them is positive. It is hoped that no such charges will be urged against any one, and that all good citizens will vie with the city officials in attempts to have a safe and quiet Christmas.

Accidents incidental to the season are already reported in some places. Shot in the eye with an air rifle which one of a crowd of boys was firing at Clinton street and First avenue, Baltimore, yesterday, Walter Gough, 33 years old, was removed to a hospital. It is feared he will lose the sight of the eye. Gough was passing the corner when one of the boys fired the rifle. After shooting the rifle the boys ran, and the police were unable to learn who fired the shot.

Foley's Honey and Tar
COMPOUND

CLEARS THE THROAT of phlegm and mucus, stops that tickling, opens the air passages for easier breathing and cools the raw, inflamed surfaces with a healing, soothing medicine.

Grateful Father Tells What It Did

W. E. Curry, 130 Up 6th St., Evansville, Ind., writes: "I have a little girl 6 years who has a good deal of trouble with croup. I have used Foley's Honey and Tar Compound, giving it to her according to directions, and obtaining instant relief for her. My wife and I use it whenever bothered with a bad cold or cough, and I will say that it is the best remedy for a bad cold, cough, throat trouble or croup that I ever saw."

Parents who use Foley's Honey and Tar know it is safe and no harm will come even if an overdose should be given by accident. It tastes good and children like it. It won't upset the delicate stomachs of young children, delicate persons or elderly people.

Only Two More Days to Shop for Christmas

Christmas is so near that one can almost hear the jingle of Old Santa's Sleigh bells and yet, we venture the assertion that dozens of men and women of Alexandria find their gift lists incomplete and are beginning to worry over the suitable gift to stop the gap. And that is where the "Christmas Store" is going to be of real service. Whether the missing gift is for young or old, large or small, this store will gladly supply and complete your list, with perfect satisfaction to you.

OPERATORS DISSATISFIED

Hurried Call Sent Out for Meeting in Cleveland Tomorrow

Members of the executive committee of the bituminous coal operators sent out last night a hurried call for a meeting in Cleveland tomorrow of the representative operators of the organized fields to determine what action they will take on the President's special coal commission.

The operators are openly antagonistic to the plan which the special commission is to operate according to the President's letter. They reiterated yesterday that they had never been consulted and had never agreed to the memorandum of settlement signed by Attorney General Palmer and President Lewis of the United Mine Workers enroute to Indianapolis December 7.

HELD AS BANDIT

Norfolk, Va., Dec. 22.—F. W. Darnell, a Norfolk policeman, was placed under arrest Friday, charged with demanding money at the point of a pistol. Three charges of obtaining money under threats were also preferred against Darnell. The threats and hold up are alleged to have been made on negro women.

Darnell, dressed in civilian clothes, was found with a pistol drawn on Florence Young, colored who, reduced to tears, was denying his demand for money. Detective Charlton, drawing his pistol, disarmed Darnell. He was suspended from the force.

Good Health The Glory of Womanhood

Attractiveness, Pleasing Personality Magnetism—For the Woman With Good Health

Good Blood Means Good Health

Pepto-Mangan Makes Rich, Red Blood —Builds up Women Who Lack Energy

How natural that the woman with an abundant supply of vigor, health and natural attractiveness should compel the admiration of everyone she meets and that she should enjoy life to the utmost. Her magnetic personality and personal charm make her the center of attraction everywhere.

Of course it is the desire of every woman to be healthy and happy and to make those around her happy, yet many women who do not possess good health accept that tired, worn-out, half exhausted feeling as their lot, unconscious of the fact that such poor health is often merely a matter of the blood, and that such a condition can be remedied.

Pepto-Mangan is intended for just such women. It contains the very elements that enrich the blood and increase the supply of the little red blood cells which are so necessary. It is these healthy little red-blood cells that carry nourishment, strength, vitality, and vigor to every part of the body.

Pepto-Mangan is sold in both liquid and tablet form. Both possess exactly the same medicinal properties. When you ask your druggist for Pepto-Mangan be sure to specify "Gude's" —that is the genuine.

SUBSTITUTE KILLS MAN

Prune Juice and Wood Alcohol Alleged to Have Caused Death Death

Reading, Pa., Dec. 22.—The death under mysterious circumstances here Thursday of Frank Marcinkowski, 45 years old, father of 8 small children, has started county and Federal authorities on a rigid investigation of reports that a poisonous substitute for whisk is being manufactured and sold in Reading.

The dead man's widow and several others have informed the authorities that his death was the result of drinking some of the stuff, and that at least one other death and the condition of a man lying at the point of death at a local hospital, can be directly traced to the whisky substitute which is said to have been nothing more than wood alcohol and prune juice.

Marcinkowski was employed at a local iron works and was a man of robust health and build. It is said that several days ago he bought a bottle of the supposed liquor at a corner saloon for $3 and drank quite a bit of it while chopping wood in the cellar. Next day he was taken ill with vomiting. His condition became worse until yesterday, when he died, his illness having developed into double pneumonia.

In the meantime the wife found the bottle of "red stuff" she said her husband had been drinking. She claimed the saloonman who sold it offered her a considerable sum of money and enough besides to pay the way of her family back to Poland if she would keep quiet and not make a fuss. She went to the District Attorney with the liquor. It has been turned over to the Federal authorities, and an analysis is being made.

SETS THE PACE
22nd Year

The "THOROBRED"
7-passenger Touring Car

THE trend of automobile engineering points to the 8-cylinder car. And good buying judgment points to Oldsmobile.

We aimed higher than simply pioneering the "eight." We aimed to produce one of moderate price and low maintenance costs,

—that had the flexibility, smoothness and abundance of power inherent in the 8-cylinder car.

—that cost as little to buy and operate as the majority of "sixes" and many "fours."

—that would be smartly distinctive, yet characteristically Oldsmobile.

Our aim is attained in the "THOROBRED"—the only popular priced "eight" in which mechanical excellence is combined with rare riding comfort and up-to-the-minute body lines. Oldsmobiles have been the history-makers of motordom; the "THOROBRED" is well worthy to perpetuate the name.

Descriptive literature will be sent upon request, or a demonstration gladly arranged.

The railways of the United States are more than one third, nearly one half, of all the railways of the world. They carry a yearly traffic so much greater than that of any other country that there is really no basis for comparison. Indeed, the traffic of any two nations may be combined and still it does not approach the commerce of America borne upon American railways.

United States Senator Cummins.

ASK any doughboy who was "over there" and he will tell you that American railroads are the best in the world.

He saw [illegible] by land and France [illegible] and in other Continental countries he knows.

The part railroads have played in the development of the United States is beyond measure.

American railroads have achieved high standards of public service by far-sighted and courageous investment of capital, and by the constant striving of managers and men for rewards for work well done.

We have the best railroads in the world —we must continue to have the best.

But they must grow.

To the $20,000,000,000 now invested in our railroads, there will have to be added in the next few years, to keep pace with the nation's business, billions more for additional tracks, stations and terminals, cars and engines, electric power houses and trains, automatic signals, safety devices, the elimination of grade crossings—and for reconstruction and engineering economies that will reduce the cost of transportation.

To attract to the railroads in the future the investment funds of many thrifty citizens, the directing genius of the most capable builders and managers, and the skill and loyalty of the best workmen—in competition with other industries bidding for capital, managers and men—the railroad industry must hold out fair rewards to capital, to managers and to the men.

American railroads will continue to set world standards and adequately serve the Nation's needs if they continue to be built and operated on the American principle of rewards for work well done.

This advertisement is published by the Association of Railway Executives.

Those desiring information concerning the railroad situation may obtain literature by writing to The Association of Railway Executives, 61 Broadway, New York.

THEATRES

GRAND THEATRE

Vivian Martin, who plays the star part in "Unclaimed Goods" has long held a leading place in film circles, owing to her vivacity, naturalness and childlike charm. As a Paramount star she has won hosts of admirers who assert that she is one of the most delightful of all screen actresses, possessing a naivette that is inimitable and a charm of manner that is irresistible.

In her new picture she will portray a western role, that of the daughter of a Sheriff and her remarkable experience is that of being sent "by express" from one town to another. Unclaimed at her destination, she is about to be sold at auction, when she is rescued and a "bad man" she has befriended, sacrifices his life in her defense. "Unclaimed Goods" will be displayed at the Grand Theatre tonight.
